

## Vinyl Caps / Protectors

Revata Engineering manufactures a wide range of PVC Vinyl End Caps / Protectors. We also manufacture a wide range of PVC based Grip Handles.

PVC Vinyl End Caps / Protectors are the most preferred end caps due to their flexible nature which allows them to go on easily and remain in place while the soft material acts as a cushion to the end of the bar, tube or part.

We manufacture PVC Vinyl End Caps / Protectors in any diameter and length and in a wide variety of Thicknesses, Colours, Hardness etc.

We can also manufacture based on your custom requirements.

**Vinyl End Caps / Protectors are available in various shapes some of which are:**

- ✦ Round End Caps For Tubes, Bars
- ✦ Extra Long Fittings For Usage As Sleeves
- ✦ Tube Caps
- ✦ Nut - Bolt Caps
- ✦ Hexagonal Caps for Hydraulic Fittings
- ✦ Angled Caps To Protect Ends Of Angles and Fittings.
